

Developing a DEI Pedagogy

March 29 - 31, 2023

Einbeck, Germany

A Post-Graduate Experiential Laboratory

for Alexander Technique Teachers & Trainers

exploring the intersection of

DEIB & AT

(Diversity, Equity, Inclusion & Belonging)

This is a collaborative immersion for all those who want to explore and create new paradigms and teaching tools for Alexander Teachers, based on the principles of Diversity, Equity, Inclusion, & Belonging.

Topics may include:

- developing non-hierarchical teaching forms
- tools for agency and consent
- creating more inclusive and accessible ways for people to study
- recognizing and changing patriarchal assumptions and patterns
- recognizing underlying biases (racial, non-binary, queer, ability, age, socio-economic, etc), and creating more inclusive communities
- AT as a tool for Social Justice and Allyship

*Let's get together, in person,
to share our tools and develop new ones.*
